To Whom It May Concern:

About one year ago, a couple of lease buyout firms including the current owner of the cell tower approached me regarding the possibility of purchasing the revenue stream from cell tower lease.

Kimberly, from APW is a great person to work with. She took the time to go over all of the aspects of the transaction. She assisted my team to resolve issues on our side. She truly cared about the people who she is working with not just the deal. Some people involved in sales just want "the deal" and move on.

APW presented themselves in a very professional manner, I must commend both Kimberly and Rachel's patience, and personal attention that really made this experience rewarding. I must say the creative options presented by Kim's team gave us options that worked in our unique situation.

APWireless doesn't just "talk the talk" they actually perform. Currently they are working to get additional carriers on the tower on my site which will increase the revenue stream.

I'm so grateful to work with Kimberly and the entire team APW for their tireless efforts. If anyone wishes to contact me I would be happy to share my experience with APW.

If you are considering the possibility of selling your cell tower lease, I strongly urge you to talk to Kimberly at APWireless she will take care of you.

Respectfully,

Robert P. Mentore

Vice – President
